

HOW TO DRAW AN AUSTRALIAN BUSH CREATURE

The following steps correspond to the numbers on every “How to Draw Sheet”. So select your reference creature carefully and try my simple steps. If you don’t have access to great photography or some good books, then use my illustrations as a starting point and start drawing - surprise yourself!

1

Step 1

Follow your reference and **VERY LIGHTLY** draw some simple construction lines to find your proportions.

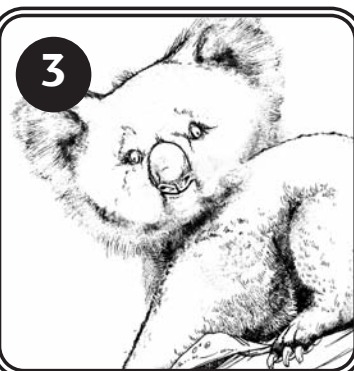

Step 2

BUILD UP your drawing and the detail. Start sculpting your lines and shapes. Try not to press too hard and keep your lines light.

2

3

Step 3

When you are happy with it, use a fineliner or pen to **INK OVER** your pencil sketch. Remember, this step is final so take your time.

Step 4

Last of all, rub out your pencil lines and **COLOUR IN** your Australian Bush Creature for the full effect.
